Sheila

I will be out of town on Thursday and not be able to participate. Perhaps Catherine Knott or Phil North can show me how to use Quickr. I learned a great deal from the Anchorage meeting and thank you for your organizational and leadership efforts.

Subject: Bristol Bay Technical Team Meeting follow up

All - Thanks to those of you who participated in last week's Bristol Bay Watershed Assessment Technical Team meeting. It was great to get everyone in the same room and discuss our path forward on the assessment.

Action Items

I am attaching two documents for your review - action items from the meeting and a list of technical subgroup members. I'd like to check in on both of these on our Thursday technical team call. Please take a look and let me know if we did not capture things correctly.

(See attached file: 071811BBTech_Meeting_Action_Items.docx)(See attached file: 071811_Bristol_Bay_Tech_Subgroups_draft.docx)

Sharing information on Quickr

I have set up a folder for technical team documents on the Quickr website. On our Thursday call, we'll have a tutorial on how to use this site. We'll set it up so all of the members of the technical team have access to this folder. You will be able to post and share technical documents. I have already posted two documents from Phil Brna in this folder - the USFWS watershed map and the USFWS Chuitna River Climate Change Powerpoint.

Thursday Technical Team Call

We are still updating our contact lists. If you want to join the semi-weekly technical call (Thurs, 7/21, 1-3 Pacific Time), but have not yet received an invitation to these calls, here is the information:
